

As we continually seek God's will for Trinity, we desire to—

Facilitate growth by strategically increasing ministry resources. Investing in our ministries to accommodate current growth.

Use our building and land assets for Kingdom purposes. Whether it is a multi-purpose space, refreshing our current campus (carpet, paint, lighting, etc.), or partnerships to reach the marginalized, we want our building and land to be used for Kingdom impact.

Equip and train the next generation of ministry leaders. Through a pastoral residency program, our desire is to equip and send out the next generation of pastors and missionaries.

Invest in increased missional efforts here, near, and far. Continuing Trinity's legacy of reaching the lost, we desire to increase investment in outreach across the street and around the world.

Resource and strengthen marriages, parenting, and family discipleship. Through marriage ministries, providing resources for parents, and continuing to provide resources for families to take the lead role in discipling their children.
